

PRISR-G

Premco's Inside Safety Release Glow-in-the-Dark

ITEM SCHEMATIC

ITEM DESCRIPTION

PREMCO INSIDE SAFETY RELEASE: Premco's PRISR-G is made of high strength steel with Glow Knob, available in 4 1/2", 6 1/2", 8" & 10" lengths. Premco's push rod lengths vary in sizes from 4 1/2" to 10" to accommodate different door thickness. To determine push rod length, add 2" to the door thickness. If you are using a recessed plastic cup, add " to the thickness of the door to determine the proper length. Premco's PRISR-G inside safety release also meets OSHA safety requirements.
